Industry Best Practices

Innovative and driven professional eager to leverage leadership skills proven in the event coordination industry and a passion for creativity honed while working in the music industry—writing songs for artists like Third Eye Blind—into a web and application development career. Exceptional ability to communicate customer requirements and translate these into reality. Recently completed the demanding Web Development Immersive program at General Assembly.

PROFESSIONAL EXPERIANCE

COHERO HEALTH, New York, NY   June 2016 - Present
DEVELOPER
▪ Created interactive ROI Calculator for CoHero a Grand Central Tech startup.

THE GREEN BUILDING, New York, NY   2012 - Present
EVENT PRODUCER
▪ Oversaw coordination and logistics for events, including weddings and company parties of 175 to 500 guests.
▪ Managed venue staff at Green Building and 501 Union.
▪ Served as event liaison for vendors.

TECHNICAL SKILLS

Full Stack Frameworks:	Ruby on Rails, Node.js
Web Development Languages:	JavaScript, Ruby, Java, HTML5, CSS3
Other Frameworks, Libraries, and Technologies:	JQuery, React.js, jQuery – Ui, Bootstrap, SASS, Sketch, ratchet.js, d3.js, chart.js

BENCHMARKS

• Developed textbub, using Ruby on Rails, a responsive application similar to Yelp that allows users to leave reviews via text message and prevents spam.
• Built Group - Crit, a site where artists can privately comment on each other's works in progress.
• Programmed Pixelogue, a two-player puzzle matching game built with javascript and jQuery.
• Created Git Garden, a single page application that allows users to track the activity of their favorite GitHub repos visually.

EDUCATION

Bachelor of Arts in Music Technology, NEW YORK UNIVERSITY, New York, NY

Graduate Foundations Certificate, COLUMBIA UNIVERSITY, New York, NY
